

**HOME & OFFICE**

Hot and cold drinking water generation for homes, offices and hospitality spaces.

**Technical specification**

|                            |                                          |
|----------------------------|------------------------------------------|
| Output                     | Hot & cold                               |
| Storage capacity           | 12.5 Litres                              |
| Water generated            | 30 Litres/day generated at 30°C & 80% RH |
| Filtration & sterilisation | 13 stage                                 |
| Water temperature          | 4–95°C                                   |
| Working temperature        | 15–40°C                                  |
| Working humidity           | 35–95%                                   |
| Dimensions                 | 45 × 43 × 112 cm                         |
| Net weight                 | 49 kg                                    |
| Refrigerant                | R134a                                    |

**Important performance note**

Rated water production depends on ambient temperature and relative humidity. Actual site output may differ from the stated rating. Confirm site conditions, electrical requirements, storage and intended use with WatAir before final specification.
