

# PW HR-5500L

Low Power Consumption

**5500**

LITRES / DAY

**COMMERCIAL & INDUSTRIAL**

High-efficiency large-scale system producing up to 5,500 litres per day.

## Technical specification

|                     |                    |
|---------------------|--------------------|
| Output              | Ambient            |
| Storage capacity    | External tanks     |
| Water generated     | 5,500 Litres/day   |
| Working temperature | 15–45°C            |
| Working humidity    | 30–100%            |
| Dimensions          | 314 × 317 × 203 cm |
| Net weight          | 3,200 kg           |
| Refrigerant         | R134a              |
| Certificates        | CE, CB, UL, IEC    |
| Power consumption   | 35 kWh             |

## Important performance note

Rated water production depends on ambient temperature and relative humidity. Actual site output may differ from the stated rating. Confirm site conditions, electrical requirements, storage and intended use with WatAir before final specification.
